

ROYALTY
HARDWOODS LTD.
Quality Wood Products

is pleased to offer our new
“CRYSTAL FINISH”
on all our pre-finished flooring.

Supplied by :

UVCRYSTAL

Since its creation in 1997 U.V. Crystal has **specialized** in hardwood floor pre-finishing and today has attained **a finish envied by all our competitors**. Our vast expertise led us to develop a wide and fantastic range of custom colours for stained floors. Our present customers are extremely proud to show their finished products.

TECHNICAL DATA

- Costa sanding machines that provide a **high quality** base for finish application.
- **10 coats** of polyurethane U.V. coating with an addition of **aluminium oxide** to offer the **best abrasion resistance possible**.
- Total thickness of the varnish applied is 3.1 mils.

DATA

- Taber test is 500 rotation and up.
- Abrasion results show **30% to 110% better than the competition** using the same technique.
- Adhesion to the substrate is **100% tested** every 15 minutes.
- No orange peel effect on our pre-finished products.

THE ULTIMATE FINISH IN HARDWOOD FLOORING
